

Product Technical Data Sheet

AUSpro 2349 Adhesive Cleaning Solvent

Description:

AUSpro 2349 is a solvent blend, which has been designed for the cleaning and removal of dried solvent based adhesives.

Typical Properties:

Appearance:	Clear liquid.
Viscosity:	Solvent thin
Solids:	Less than 1%
Specific Gravity:	Approx. 0.78

Directions for Use:

AUSpro 2349 may be used for the cleaning of equipment and adhesive spillage.

1. Apply solvent to equipment or spillage and wipe away using a fabric cloth or rag. Ensure that solvent soaked materials are disposed of in accordance with federal and local disposal regulations.
2. As a thinner, AUSpro 2349 may be used in the thinning down of brush or roller grades of Neoprene contact adhesives.
3. Add small quantities of solvent blend to the adhesive until the adhesive viscosity meets application requirements. Thinning of adhesive will generally cause the drying time to increase.

Note:

AUSpro 2349 is not recommended to be used for the thinning of sprayable Neoprene contact grades.

AUSpro 2349 is not suitable for adhesives used to bond Polystyrene foam, since attack of the foam will occur.

Clean Up:

Remove excess solvent with absorbent fabric cloths or rags.

Storage and Handling:

Please read the Material Safety Data Sheet for this product BEFORE it is used.

Keep covered when not in use to prevent contamination and drying out.

Keep product away from all possible sources of ignition.

Product must be stored in compliance with local and federal storage regulations.

Store under cover in a cool dry place away from direct sunlight

Use only in a well ventilated area. Avoid breathing fumes or vapours and contact with skin.

If the product is classed as a dangerous good, ensure that the product is stored in compliance with the applicable dangerous goods storage regulations. Refer to the products Material Safety Data Sheet for the dangerous goods classification.

Shelf Life:

Best used within 12 months from date of manufacture when stored under the above conditions in the original unopened containers.
