90mm x 90mm Allfasteners Horseshoe Packers Square

ALLFASTENERS' Horseshoe Packers are made from solid polypropylene. This gives them an extremely high compression strength, making them suitable for both the lightest and most heavy duty applications. They will never corrode, rust, rot, shrink or expand and are guaranteed to outlast wherever they're installed. Colour coded for easy identification of thickness. When you have a big job to do see at a glance how much space has been packed as you go and make adjustments accordingly. There's no need to waste time sorting through or measuring packers.
