Zip-Mates® Plasterboard Anchor Drill Point

Zip-Mates® self drilling plasterboard anchors provide a secure fixing point to plasterboard. For medium only duty applications around the home up to 10kgs, e.g bathroom and garage fixings, mirrors and clocks.

Available as both metal or nylon.

Warning: Zip-Mates® anchors are only as strong as the plasterboard in which they are anchored to.

The plasterboard will fail first, not the Zip-Mates®. Due to possible differences in applications and interpretation of results, purchasers must make their own evaluation of the product to determine the suitability of Zip-Mates® for their intended use.
