1-1/4" Plain L7 Stud Bolt Kit

L7 stud bolts are commonly sold as plain (unplated) bare metal finish however we offer surface coatings which have benefits for corrosion protection, lubrication and or wear resistant properties.

- Stud lengths are measured first leading thread to last leading thread.
- All kits are supplied with 2x 7L grade heavy hex nuts.
- ASTM A193/A194 stud bolts and nuts come standard with EN 3.1 certification.
