

JOINT BACKING ROD

OPEN CELL

SKU: 11BROC

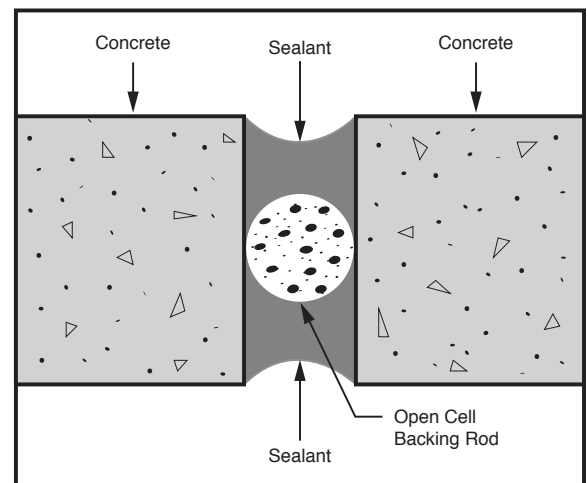

Open Cell Backing Rod is manufactured from **open cell low density polyurethane foam**. The product is manufactured in a range of sizes and has excellent compression and recovery properties.

- Compatible with all leading joint sealants
- Eliminates sealant bubbling and more breathable
- Smaller joint
- More compressible than other backing rods
- Round profile enables sealant to form correct profile for optimum movement
- Minimises the amount of sealant required
- Suitable for horizontal and vertical joints, internal walls, and glass applications
- Conforms easily to irregular shaped joints
- Does not discolour or stain
- Non-adhering to sealants
- Made in Australia

PHYSICAL CHARACTERISTICS

- **Material:** Low density polyurethane open cell foam
- **Density:** 27kg/m³ nominal
- **Service Temperature:** -40C to +70C
- **Tensile Strength:** 85KPa
- **Compression Set:** 90%
- **Resilience:** 40% minimum
- **Tear Resistance:** 250 N/m minimum
- **Flexibility:** Excellent
