

HORSESHOE PACKERS

POLYPROPYLENE

Application:

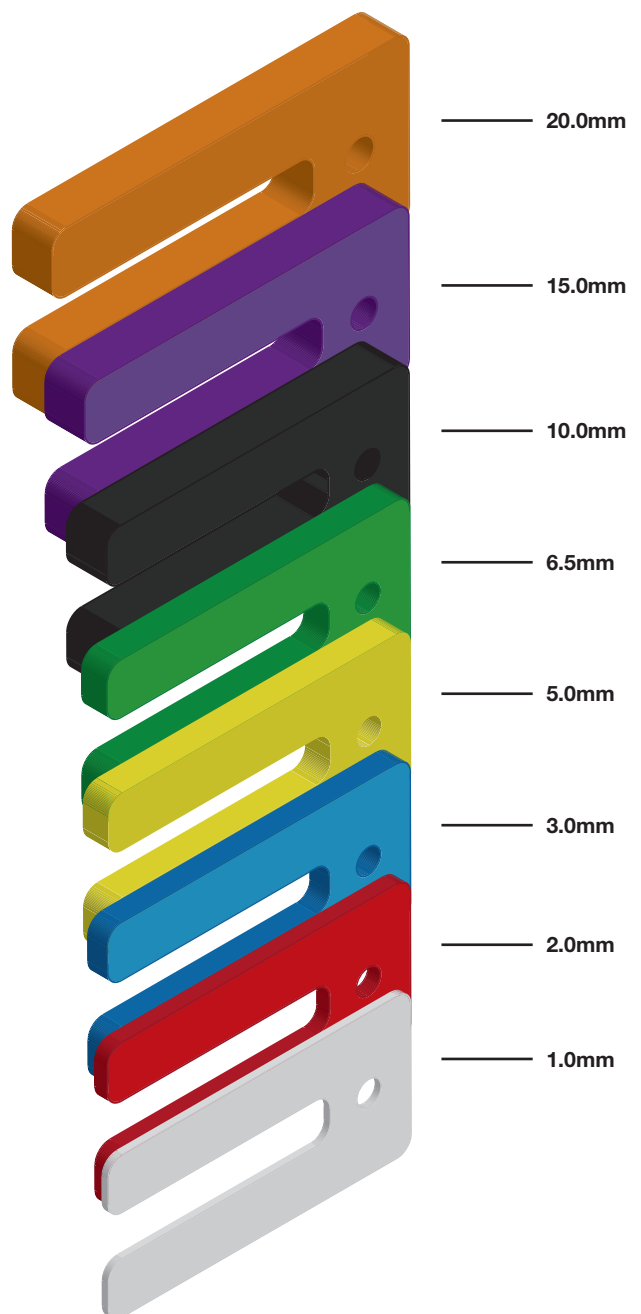

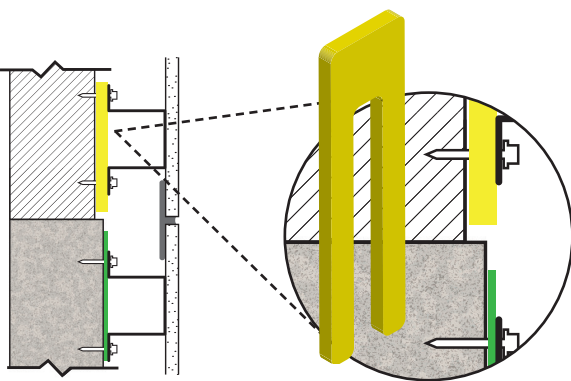

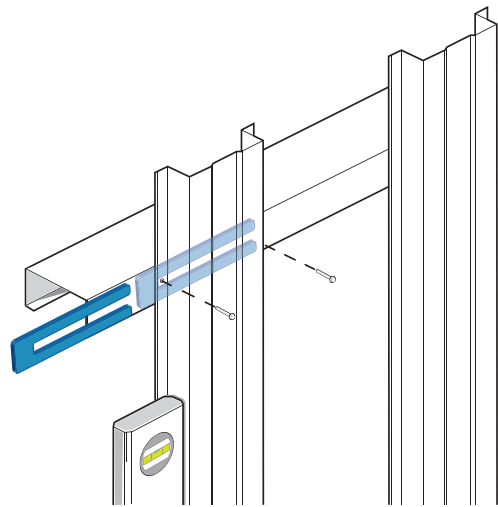

ALLFASTENERS' Horseshoe Packers are made from solid polypropylene. This gives them an extremely high compression strength, making them suitable for both the lightest and most heavy duty applications.

- Colour coded for easy identification of thickness.
- They will never corrode, rust, rot, shrink or expand and are guaranteed to outlast wherever they're installed.
- Our range of Horseshoe Packers will suit 99% of jobs but can be easily cut, drilled and otherwise shaped if necessary.

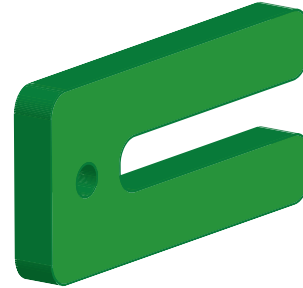

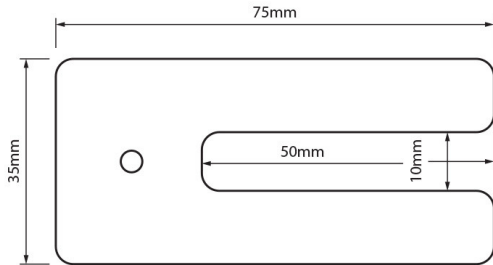

Ideal for window and door frame leveling, floor joist, wall and ceiling batten and joinery packing. Each packer is manufactured to the highest national standards and comes with a range of benefits.

140mm Allfasteners Horseshoe Packers

140mm Horseshoe Packers simplify wide span top hat leveling by bridging the gap between fasteners, letting you use a single packer instead of two smaller packers. This allows adjustments without the packers shifting or falling out. Suitable for common tophat and purlin structures for cladding and curtain wall construction.

Each material sample was subjected to a load capacity of 100kN, the materials change* in form was then measured.

SAMPLE	1.5 mm	3 mm	5 mm	6.5 mm	10 mm
Mean Change	0.09 mm	0.21 mm	0.45 mm	0.38 mm	0.65 mm

*Change in material expressed a mean of samples tested in each group.

UV Stabilisation

Product Code: AD030615A

Colour Name: UV Additive

Carrier: PE

Addition Rate: 1.00%

Description: This Masterbatch is based on LLDPE carrier, It contains HALS type UV additive for protection of plastic products and it is suitable for the application of Injection Moulding, Blow Moulding and Extrusion of Polyolefines.

Packaging: The Masterbatch is normally supplied in 15kg polyethylene bags.

Properties	Values
Granules:	2-3 mm (Approx)
UV additives Content:	>20%
Heat Stability:	270°C (additive only)
Light Fastness:	N/A (Blue Wool Scale)
Food Contact:	Yes (AS2070-1999)
